**UNITED STATES BANKRUPTCY COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN FRANCISCO DIVISION**

In re:

PG&E CORPORATION,

Debtors.

Case No.: 19-30089
Chapter 11
Hon. Dennis Montali

(Request for joint administration pending)

In re:

PACIFIC GAS & ELECTRIC COMPANY,

Debtors.

**TURNER CONSTRUCTION
COMPANY'S PRELIMINARY
OBJECTION AND RESERVATION OF
RIGHTS WITH RESPECT TO DEBTORS'
OPERATIONAL INTEGRITY MOTION
(DKT. NO. 12), LIEN CLAIMANTS
MOTION (DKT. NO. 13) AND DIP
FINANCING MOTION (DKT. NO. 22)**

Creditor Turner Construction Company ("Turner") hereby files this preliminary objection to the Motion to Pay Prepetition Obligations Owed to Certain Safety and Reliability, Outage, and Nuclear Facility Suppliers (Dkt. No. 12) (the "Operational Integrity Motion"), Motion to Pay Prepetition Obligations Owed to Lien Claimants (the "Lien Claimants Motion") (Dkt. No. 13), and Motion to Authorize Senior Secured, Superpriority, Postpetition Financing (the "DIP Financing Motion") (Dkt. No. 22) (collectively, the "Motions") filed by Debtors PG&E Corporation ("PG&E Corp.") and Pacific Gas & Electric Company (the "Utility") (collectively, the "Debtors"). In support thereof, Turner respectfully states as follows:

TURNER CONSTRUCTION COMPANY'S PRELIMINARY OBJECTION AND RESERVATION OF RIGHTS WITH RESPECT TO DEBTORS' OPERATIONAL INTEGRITY, LIEN CLAIMANTS, AND DIP FINANCING MOTIONS

CASE NO. 19-30089

1 **BACKGROUND**

2 The Utility and Turner are counterparties to a Master Services Agreement, as amended, pursuant
3 to which Turner has provided prepetition and postpetition construction services on various projects.
4 Turner and its numerous subcontractors continue to provide construction services on numerous projects,
5 including mission critical work with respect to the Debtors' energy grid. Turner is owed at least \$20
6 million for unpaid prepetition services that it has performed for the Debtors (which includes over
7 \$6.6 million in retainage) and is also owed an increasing amount for postpetition services being provided
8 to the Debtors. Notably, Turner's prepetition and postpetition claims against the Debtors are secured by
9 constitutional and statutory liens in favor of Turner against the Debtors' property and equipment for
10 amounts owed.¹

11 **OBJECTIONS**

12 **A. The Operational Integrity Motion**

13 In the Operational Integrity Motion, the Debtors request authority to pay prepetition obligations
14 totaling \$116,200,000 owed to certain vendors, suppliers, service providers, and other creditors that the
15 Debtors argue are critical to the Debtors' operations (the "Critical Vendors"). Although the Debtors
16 state that certain vendors are critical to their operations, they fail to identify with specificity a single
17 Critical Vendor that they intend to pay pursuant to the motion or the amount that they request to pay any
18 Critical Vendor. Instead, the Debtors propose to delegate the responsibility of designating particular
19 vendors as critical to a "Supplier Management Committee." The Debtors provide scant details regarding
20 this committee, including which individuals will serve on the committee, their qualifications, how the
21 committee will reach its determinations, by when the determinations will be reached, or whether said
22 determinations will remain subject to this Court's review and approval.

23 The Debtors have not provided sufficient details regarding the nature and scope of the relief
24 sought in order to permit a thorough vetting of the Operational Integrity Motion. Therefore, Turner
25

26
27 ¹ As the Debtors acknowledge, Turner is entitled to administrative expense priority status with
28 respect to the Debtors' unpaid obligations arising from Turner's postpetition services. (*See* Lien
Claimants Motion, at 15:27-16:1 (citing 11 U.S.C. § 503(b)(1)(A)).)

1 objects on a preliminary basis and reserves all of its rights with respect to the interim and final relief
2 sought in the Debtors' Operational Integrity Motion.

3 **B. The Lien Claimants Motion**

4 In the Lien Claimants Motion, the Debtors request authority to pay prepetition claims of certain
5 creditors who provide goods and services to the Debtors and may be permitted to assert statutory or
6 possessory liens against the Debtors' property and equipment in the event of non-payment (the "Lien
7 Claimants"). In particular, the Debtors propose to pay approximately \$25,800,000 on an interim basis
8 and \$65,500,000 on a final basis to the Lien Claimants on a "case-by-case basis."

9 The Debtors' Lien Claimants Motion lacks details regarding the criteria the Debtors intend to use
10 to determine which creditors will be paid pursuant to the motion, how much they will be paid, and
11 whether determinations regarding payments will be subject to this Court's review and approval. In fact,
12 the Lien Claimants Motion provides even fewer details than the Operational Integrity Motion with
13 respect to how the Debtors will identify which creditors will receive payments pursuant to the motion.
14 The Debtors have not provided sufficient details regarding the nature and scope of the relief sought in
15 order to permit a thorough vetting of the Lien Claimants Motion. Therefore, Turner objects on a
16 preliminary basis and reserves all of its rights with respect to the interim and final relief sought in the
17 Debtors' Lien Claimants Motion.

18 **C. The DIP Financing Motion**

19 Turner understands from the DIP Financing Motion, the proposed order thereto, and
20 representations made to Turner's counsel by the Debtors' counsel that the "DIP Liens" granted pursuant
21 to the DIP Financing Motion will be junior and subject to perfected repairmen/materialmen/mechanic's
22 liens (defined in the DIP Financing Motion as "Senior Permitted Liens" and "Permitted Prior Liens").
23 Based on the representations made by the Debtors' counsel, Turner does not object to the DIP Financing
24 Motion at this time, but reserves its right to object to the DIP Financing Motion and the relief sought
25 therein on a final basis.
